

The image shows a mobile application interface for a login page. At the top, a status bar displays the time '9:00' and icons for signal strength, Wi-Fi, and battery. The app's title 'HEALTHX' is prominently displayed in a large, bold, serif font. Below the title, there are four input fields for 'User ID', 'Name', 'Phone Number', and 'Email', each with a corresponding label. A 'Login' button is positioned below the email field. At the bottom, a link reads 'New to HealthX? Sign Up Now'. The entire interface is framed within a rounded rectangle representing a smartphone, with a home indicator bar at the very bottom.

The image shows a mobile application interface for editing a user profile. The screen is framed by a rounded rectangle representing a phone. At the top, there is a status bar with the time '9:00' on the left and icons for signal strength, Wi-Fi, and battery on the right. Below the status bar is a header bar with a back arrow on the left, the text 'Edit Profile' in blue in the center, and a save icon (a floppy disk) on the right. The main content area contains five form fields: 'User ID' with two horizontal lines, 'Name' with a single rectangular box, 'Phone Number' with a single rectangular box, 'Email' with a single rectangular box, and 'Reminder Frequency' with a dropdown menu showing 'Everyday' and a downward arrow. The bottom of the screen shows a home indicator bar.

Add new problem

The image shows a mobile application interface for adding a new problem. The screen is framed by a grey border representing the phone. At the top, there is a status bar with the time 9:00, signal strength, and battery level. Below the status bar is a header bar with a blue back arrow, the text "New Problem", and a black floppy disk icon. The main content area contains three form fields: a "Title" field with a single-line text input, a "Date Started" field with a date picker showing "12 May 2016" and a calendar icon, and a "Description" field with a multi-line text input. A small pencil icon is visible in the bottom right corner of the description input area.

Body location

The image shows a mobile application interface for tracking body location. It features two large, simple human figures, one labeled 'front' and one labeled 'back'. The 'front' figure has a small, multi-colored icon on its left arm. Below the figures, there is a label 'body location' followed by a dropdown menu currently showing 'left arm(front)'. At the bottom, there is a 'Save' button. The interface is displayed on a smartphone screen with a status bar at the top showing the time '9:00' and signal/battery icons.
